Timing Analysis, Timing Analyzer, Static Timing Analysis, Static Timing Analyzer, STA, TimeCraft, multi-thread timing analysis, multi-thread STA

Incentia TimeCraft, a tape-out proven nanometer static timing analysis (STA) that runs 2X to 10X faster than other solutions , LOCV analysis, MMMC, multi-thread capability

Logic Synthesis, Logic Synthesizer, RTL Logic Synthesis, Test Synthesis, Lower Power Synthesis, DesignCraft

Incentia's DesignCraft is a complete logic synthesis software tool to optimize for area, power, timing, and design-for-testability.

DFT synthesis, Test Synthesis, TestCraft

Incentia's TestCraft, DFT synthesis with rich features, 2X to 10X faster than other solutions

Signal Integrity, SI, TimeCraft-SI

Incentia's TimeCraft-SI, a signal integrity (SI) analysis tool that runs 2X to 5X faster than other solutions
